

What Progress Has Been Made?

- The preliminary design report has been completed.
- Geotechnical testing has been completed.
- Alberta Transportation has approved crossing permits for Secondary Highway 854. This will save approximately \$30,000 on the total project cost.
- The design route has been finalized. Two optional extensions have been included - one for a 3/4 mile extension to serve 2 residences and the second for a 3 3/4 mile extension to serve one residence.
- The County submitted an application for a grant under the Building Canada Fund program. The application was not approved.
- Pre-tender estimates have been prepared.
