Email Address: _____

Registered Owner Address (if different than applicant):

Name: _____
Address: _____
Town: _____ Postal Code: _____
Phone No.: Res: _____ Bus: _____ Cell: _____
Email Address: _____

Please check all applicable benefits to the project.

- This project will enhance traffic safety by improving sightlines.
- This project will reduce snow drifting within the adjacent road allowance.
- This project will help control brush and weeds within the road allowance.
- This project will increase arable acres.
- This project will improve fence maintenance and ease fence replacement.

Please note the following landowner/applicant responsibilities:

- The landowner shall submit a project application form to the County Office, 5120-50 Street Ryley AB, no later than May 31, 2018 for consideration by Council.
- Once approved, the project applicant is required to remove all fences, rocks, and debris from the project site. Rocks and other debris are not to be placed in the County road allowance.
- The landowner will be responsible for the burning/disposal of any brush piles created as a result of the backslope. Burning of brush will be subject to conditions of required fire permits.
- Upon completion, the area backsloped is to be kept free of weeds, brush, rocks and any other debris.
- The landowner is responsible for removing any fence prior to start of project and, if desired, is responsible for a new fence following completion of the project.
- The applicant shall submit a site sketch of the area to be backsloped.

Please note the following County responsibilities:

- The County will seed grass in the ditch following completion of the project providing the location is not to be utilized for crop production.
- The County is responsible for the location of utilities (One Call) for work completed by the County.
- The County will not commence the work until the request is approved by County Council.
- The County will not commence any work until a written agreement is in place between the County and the Landowner.
- Council approved backsloping projects will generally be completed after harvest and before freeze up.

Beaver County Council will limit the number of projects to a maximum of 10 (ten) per year, and only 1 (one) 800 meter (maximum) project per Landowner per year. All applications are subject to inspection by County staff before and after the commencement of any work for conformance with the County Backsloping Policy PW-002. If this backslope project is not approved in one calendar year, it will automatically be placed on the following year's project list for consideration by Council.

I/We, the undersigned, have read this application form and agree to all conditions.

The personal information provided by you is being collected under the authority of the **Municipal Government Act** and will be used for the purposes under the Act. The personal information that you provide may be made public, subject to the provisions of the **Freedom of Information and Protection of Privacy Act**.

Please indicate and label the following site features:

- Location of proposed backslope.
- Location of any water bodies (sloughs, creeks etc.)
- Location of any adjacent roadways
- Location of any brush in the affected area.
- Location of any fences in the affected area.

A large empty rectangular box for site plan drawing, with a north arrow in the top-left corner. The north arrow consists of a vertical line with an upward-pointing arrowhead and the letter 'N' above it, and a horizontal line with arrowheads pointing left and right, with the letters 'W' and 'E' to the left and right respectively. A vertical line with a downward-pointing arrowhead and the letter 'S' below it is also present, forming a cross.
