2018 Fall Dust Control Program

Beaver County residents desiring an application form for dust control, on the County road adjacent to their property can call the County Service Centre to be put on the mailing list. Residents must apply for dust control by July 31, 2018 for August application to:

Beaver County
5121 – 50 Street Box 140 Ryley, Alberta T0B 4A0
Office hours: 8:30 a.m. - 4:30 p.m. Monday to Friday

The fee will be imposed as a fee-for-service, calculated on the basis of 50% of the cost of the dust suppression product. The County shall provide 50% of the cost per application. Residents that would like a subsequent second application (within the same year) will be required to pay the full cost.

For more information or applications, please visit www.beaver.ab.ca or call (780) 663-3730.

Attention Farmers

If Strychnine Is An Essential Management Tool On Your Farm Make Your Voice Heard And Get Involved In The Consultation Process

Consultation on the Proposed Registration Cancellation of Strychnine and Its Associated End-use Products

Health Canada is proposing to cancel the registration of Maxim 2% Liquid Strychnine Concentrate, and to require the removal of ground squirrels use from the label of S.A.R.M Gopher Poison R.T.U. Strychnine is a registered pesticide used by growers to control ground squirrels. Following a scheduled re-evaluation under the Re-evaluation Program, Health Canada's Pest Management Regulatory Agency is consulting Canadians on the proposal to cancel the use of strychnine for ground squirrel control due to effects on non-target animals. This review identified environmental concerns in the potential poisoning of non-target animals, including species at risk such as the swift fox and burrowing owl. There is concern mitigation measures would not be practical.

CONSULTATION ON STRYCHNINE – How to get involved
