We Value Your Input

Beaver County, the Towns of Tofield and Viking, and the Village of Holden, have prepared amendments to their Intermunicipal Development Plans (IDPs).

The IDPs are beneficial tools for neighbouring municipalities to provide guidance for future growth areas, address development-related matters of joint interest along and near municipal boundaries, develop policies that are mutually beneficial, provide opportunities to explore joint economic development initiatives, and provide mechanisms for cooperation in delivering services.

The IDPs were originally approved in 2008 and Provincial legislation requires municipalities to update them. ISL Engineering and Land Services Ltd. has been working with our region to update the existing IDPs.

A Discussion Paper was prepared and has been available on each municipality's website over the last few months. It includes a review of the existing IDPs, estimates future population growth, reviews the supply of land within each municipality, and explores potential opportunities and constraints.

WE VALUE YOUR INPUT!

We now extend the opportunity to review the updated draft IDPs and provide input via an on-line survey.

The Discussion Paper, draft IDPs, and survey are available on your municipality's website.

The deadline for participation in the survey is November 6, 2019.

Questions regarding this project should be directed to your local municipal office.
