

# Riparian Management Course

**Do you own or manage land with wetlands or riparian areas?**

Join us for this interactive online course and we'll help you design and manage these areas to provide diverse goods and services, such as forage, clean water, flood and drought resilience, wildlife habitat, biomass, and more!

Includes five online classes, 7-9pm on Tuesdays and Thursdays from August 4<sup>th</sup> to 18<sup>th</sup>

*You will leave with a draft Management Plan for your riparian area that includes a baseline assessment of its health, goods and services you'd like it to provide, and appropriate restoration or management strategies*

**COST:  
\$20**

Register on Eventbrite by July 30<sup>th</sup>: <https://bit.ly/3i7FECa>
