2021 Vegetation Management Program

As part of Beaver County's roadside maintenance program, the removal of trees, brush, and regulated weed species within Beaver County road allowances will be running from May through October 2021.

- Blanket Spraying will be conducted within Division 5.
- Mechanical roadside brush control efforts will be focused within Divisions 3 and 4 (Holden and Bruce areas). Township Road 480 Construction Update

Over the next few weeks, Township Road 480 from Highway 36 to Range Road 132, will be upgraded from an oiled surface to an all-weather hard surfaced road. This involves stabilizing the road base with soil cement before applying two coats of "chip seal". While this process is much different from the process to pave a road with asphalt, the end result will seem similar to residents and the travelling public resulting in a road that is not dusty when it is dry, nor muddy when it is wet.

During this time, the road may be closed to allow crews to work safely; however, access for local landowners will be maintained during construction. There are potential hazards to the public and vehicles during the construction process. This can include heavy machinery, dust or mud, road material such as gravel, asphalt coatings and rock chips. Thank-you for your patience and understanding during construction. If you have any questions, please call the Beaver County Service centre at 780-663-3730.
