2021 Vegetation Management

2021 Vegetation Management Program

As part of Beaver County's roadside maintenance program, the removal of trees, brush, and regulated weed species within Beaver County road allowances will be running from May through October 2021.

- Spot herbicide applications will be conducted within all divisions to control tree and brush regrowth within County road allowances.
- Blanket Spraying will be conducted within Division 5.
- Mechanical roadside brush control efforts will be focused within Divisions 3 and 4 (Holden and Bruce areas). The mechanical removal and clearing of trees from County road allowances is targeted at improving traffic safety and machinery movement, eliminating areas prone to the trapping in the winter months and improving sight lines at intersections and yard sites.
- Roadside mowing operations will commence in late June/early July, depending on growing conditions. Roadside mowing will be conducted on all County roads west of Secondary Highway 834, and hard-surfaced roads east of Secondary Highway 834.
- For information regarding weed control, brush control, and haying along provincial primary and secondary highways please contact Alberta Transportation at 310-0000.

For more information regarding the 2021 Beaver County Vegetation Management Program, or service requests related to vegetation management, please contact Mike Bates, Agricultural Fieldman, or Aimee Boese, Agricultural Fieldman, at 780-663-3730.

Township Road 512 Construction Update

Over the next few weeks, Township Road 512 from Range Road 191 to 195, will be upgraded from an oiled surface to an all-weather hard surfaced road. This involves stabilizing the road base with soil cement before applying two coats of "chip seal".

While this process is much different from the process to pave a road with asphalt, the end result will seem similar to residents and the traveling public resulting in a road that is not dusty when it is dry, nor muddy when it is wet.

During this construction phase, portions of the road may be closed to allow crews to work safely. Please use another route. Detours will be posted or be cautious when you need to drive through construction zones (local traffic only). Beaver County's goal is to provide a healthy, injury free work environment for all employees, contractors, visitors and general public. Already this year we have had people exceeding the posted speed limit through our construction zones, endangering staff, contractors and the public.

There are potential hazards to the public and vehicles during the construction process. This can include heavy machinery, dust or mud, road material such as gravel, asphalt coatings and rock chips.

We apologize for the inconvenience that road maintenance and upgrading causes, but the same roads that receive the most traffic also need the most maintenance. Thank-you for your patience and understanding during construction. If you have any questions, please call the Beaver County Service Centre at 780-663-3730.
