Firearms Regulation

Firearms Regulation Reminder

Beaver County Enforcement Services would like to remind citizens of the regulations surrounding use of firearms. These regulations are found in the Alberta Wildlife Act and citizens are urged to review this legislation frequently. The legislation can be reviewed in full by visiting the Alberta Queens Printer website, clicking the Laws Online/Catalogue tab and then typing Wildlife Act.

According to Section 51(1) it is illegal for a person to discharge a firearm from, or cause a projectile from a firearm to pass along or across any roadway. The roadway would also include the ditch portion extending to any private or public land. If there is no identifiable property line (ie. fence) the ditch portion is considered to extend 20 feet from the closest edge of the travelled portion of the roadway.

Additionally, Section 52(1) prohibits discharging of a firearm within 200 yards, or causing a projectile from a firearm to pass within 200 yards of any occupied building. It is also unlawful to discharge any firearm at night, with night being defined as being ½ hour after sunset and ending at ½ hour before sunrise the following day. The current sunrise/sunset table for our area can be found at www.albertaregulations.ca.

Specifically, for the upcoming firearm hunting season, Section 2(1) of the Petty Trespass Act prohibits the entry on any land without the permission of the owner or occupier of the land. If charged and convicted a person may be liable to a fine up to \$2000. Landowners are not required to post signage prohibiting trespassing for this charge to be laid. Land that is under cultivation, surrounded by a fence or natural boundary, or that is enclosed in a manner that indicates the owner's intention to keep persons off the land or animals on the land is by default considered to be private even without signage.

Always ask permission for entry on any land for hunting or any other purposes.
