

NOTICE WATER RESTRICTION **WATER DEMAND MANAGEMENT CONDITION B**

THE HIGHWAY 14 REGIONAL WATER SERVICES COMMISSION has been notified by
STRATHCONA COUNTY.

As of June 28, 2021 we are in a Water Demand Management **Condition B**. This means there is a ban on non-essential potable water use. The ban is expected to last until the heat warning for the region is lifted.

Condition B requires that we restrict all non-essential water use by terminating activities including but not limited to:

- hydrant flushing,
- street sweeping,
 - irrigation,
 - sewer flushing,
- firefighting training
- fleet vehicle washing (including buses)
 - pool filling
- other non-essential water use (non-essential use is defined by all water not used for human consumption).

We understand that the ban is inconvenient and appreciate your cooperation in adjusting your operations for the duration of the Water Demand Management Condition. This restriction will help reduce our demand on the water supply.

Please continue to check our website www.hwy14water.ca for further updates.
