TWP RD 490 CONSTRUCTION UPDATE

Soil stabilizing for the road base with soil cement has now been completed and will be receiving the first layer of chip seal. There will be many loose rocks after the chip seal layer is applied, so speed limits will be reduced on these roads until the project is complete.

TWP RD 502 AND CAREY RIDGE ESTATES CONSTRUCTION UPDATE

Soil stabilizing for the road base with soil cement has now been completed and will soon be receiving the first layer of chip seal. There will be many loose rocks after the chip seal layer is applied, so speed limits will be reduced on these roads until the project is complete.

During these construction phases, portions of the roads may be closed to allow crews to work safely. Please use alternate routes, and be cautious while driving through these zones (local traffic only). Beaver County's goal is to provide a healthy, injury free work environment for all employees, contractors, visitors, and the general public. Already this year we have had people exceeding the posted speed limits in construction zones, endangering staff, contractors, and the public.

There are potential hazards to the public and to vehicles during the construction process. This can include heavy machinery, dust or mud, road material such as gravel, asphalt coatings, and rock chips.

We apologize for the inconvenience that road maintenance and upgrading causes, but the same roads that receive the most traffic also need the most maintenance. Thank you for your patience and understanding during this construction season. If you have any questions, please call the Beaver County Service Centre.

HWY 834 (NORTH OF HWY 14) RAIL CROSSING

Many of you have travelled the rail crossing on HWY 834 north of HWY 14, and it's not been a good experience for the last few years. As HWY 834 is a provincial highway owned by Alberta Transportation, and the crossing is owned by CN Rail, the County is not the designated authority for completing repair work. We have however been pushing for a resolution as the crossing sits within the County and affects our residents.

Over the next few weeks, we anticipate improvements to the crossing. We'll keep you posted with updates as soon as we have more information!
