### Beaver County Intermunicipal Development Plans Project

Beaver County and each of the Towns of Tofield and Viking and the Villages of Ryley and Holden have Intermunicipal Development Plans (IDPs). These were approved in 2008 with some updates over the last few years.

The IDPs are beneficial tools for neighbouring municipalities to provide guidance for future growth areas, address development-related matters of joint interest along and near municipal boundaries, develop policies that are mutually beneficial, provide opportunities to explore joint economic development initiatives, and provide mechanisms for cooperation in delivering services.

Beaver County, in partnership with the Towns and Villages, have engaged ISL Engineering and Land Services Ltd. to update the four existing IDPs. The updates will ensure that the policies within the IDPs meet current needs, reflect new and emerging trends and planning best practices, and are in alignment with the recent changes to the MGA.

A Discussion Paper has been prepared that includes a review of the existing IDPs, estimates future population growth, reviews the supply of land within each municipality, and explores potential opportunities and constraints.

To review the existing IDPs and the Discussion Paper, go to the websites for either the County or the municipality nearest you.

In late May, you will be given the opportunity to review the updated draft IDPs and provide input via an on-line survey.

For more information, contact your local municipal office.
